

# GhostPCL Datasheet

---

## GhostPCL's PCL5e/c Feature Advantages

- Compatible with AGFA font solutions
- Unlimited resolution capability
- Optimized for embedded applications
- Band-at-a-time rendering (display list)
- Compatible with e (enhanced) PCL5 extensions (LaserJet 5/6 compatible)
- Compatible with c (color) PCL5 extensions (Color LaserJet 4600)
- Bezier curve processing
- Genoa tested

## GhostPCL's PCLXL Feature Advantages

- Supports PCLXL 3.0 (HP4600 compatible)
- First non-HP implementation
- Streamlined, simplified command language.
- Fully resolution- and orientation-independent text, graphics, and images.
- Consistent handling of color, gray, and black-and-white data across monochrome and color printers.
- Ability to use complex paths (polygons and beziers) for filling, stroking, and clipping.
- Genoa tested
