

# The Fastest, Smallest High Quality PDF Renderer Available

*MuPDF is a highly versatile, customizable PDF and XPS interpreter solution that can be used across a wide range of applications as a PDF renderer, viewer, or toolkit.*

**Rocket Fast Rendering** – Benchmark tests demonstrate MuPDF's extremely speedy performance. There is no faster PDF renderer available today.

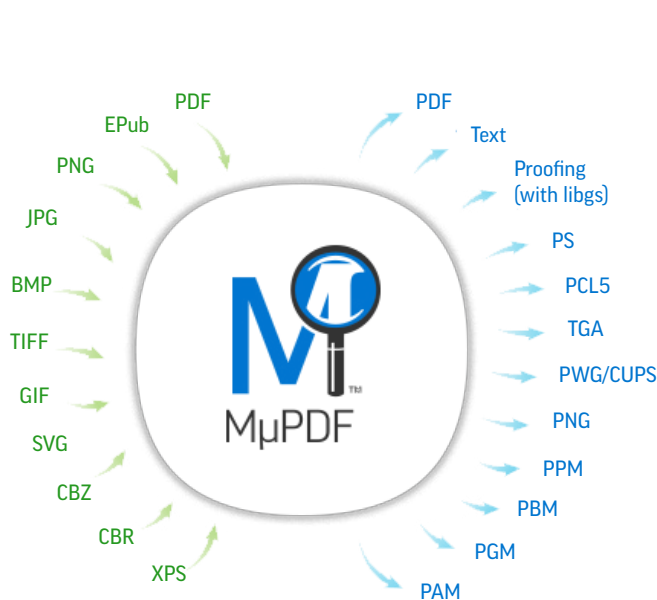

**Tiny Footprint** – MuPDF will never weigh you down. Our dynamic linked library weighs in at a mere 2MB (with base 14 fonts and CMap tables for PDF). You can also add in CJK fonts and support for Unicode scripts without adding considerable file size.

**Sub-Pixel Fidelity Level** – High-quality anti-aliased graphics renders text with metrics and spacing accurate to within fractions of a pixel, delivering the highest possible fidelity for reproducing the look of a printed page on a screen.

**Versatility** – Adapt and use MuPDF in a wide variety of embedded, host-based, mobile or cloud applications. Its use is only dependent on your creativity.

**Broad Format Coverage** – MuPDF's wide range of input and output formats maximize your value and versatility, including support for PDF 1.7 transparency and encryption.

*Our tiny footprint and lightning fast performance makes MuPDF a perfect fit for mobile browser, e-book, and embedded applications where small size is key.*

**Full Range of Platform Support** – MuPDF runs on a wide range of operating systems, including Android, iOS, Windows, macOS, Linux and Unix-like systems (e.g., Open BSD, Free BSD).

**Quality Assured** – On-going product improvements, rigorous benchmark and regression testing and our commitment to service and support ensures you receive the highest quality performance.

**Interactive PDF Features** – MuPDF supports a wide range of interactive features and functions, including annotations, text redactions, text reflow, progressive rendering, form filling, digital signatures, and more.

**Full ICC Color Support** – With MuPDF you get correct color reproduction of your images on screen and in print.

# Product Features & Information

## PDF Renderer, viewer and toolkit written in portable C, supports:

- iOS
- Android
- Microsoft Windows
- macOS
- Linux

**Interactive PDF Features** – Tap into a wide range of interactive features:

**Annotations** – Variety of annotation and editing tools available, including:

- |              |                   |                 |                   |
|--------------|-------------------|-----------------|-------------------|
| • Highlights | • Strike-out      | • Line          | • Caret           |
| • Comments   | • Font style      | • Square/Circle | • Ink             |
| • Drawing    | • Color           | • Polygon       | • Pop up          |
| • Text       | • Select/deselect | • Squiggly      | • File Attachment |
| • Underline  | • Undo/Redo       | • Stamp         | • Text Redactions |

**Text Reflow** – MuPDF converts PDF to reflowable HTML, resulting in a text format that automatically reflows text to fit device and a better end user viewing experience.

**Progressive Rendering** – Utilize extensions for handling progressive loading, enabling viewing individual pages while others load in the background.

**Other Interactive Features** – Make your PDF more interactive and productive with these tools:

- |                      |                |               |
|----------------------|----------------|---------------|
| • Form filling       | • Text Search  | • Page rotate |
| • Digital Signatures | • Copy text    | • Add page    |
| • Hyperlinks         | • Page reorder | • Delete page |

**Trusted and used by Fortune 500 leaders, independent developers and startups worldwide, Including:**

## Flexible Licensing

MuPDF is available under both Open Source and commercial license arrangements. We craft each license based on the individual use case. Please contact the Artifex Software sales team at [artifex.com/contact-us/](http://artifex.com/contact-us/) to learn more about our commercial licenses.

For over 20 years Artifex Software has provided premiere document management solutions to top level global customers including HP, Adobe, BlackBerry, IBM, Intel, Xerox, Google, Dropbox, LG Electronics, Brother, Ricoh, Garmin, and U.S. Air Force. With teams of engineers and leadership talent on three continents – North America, Europe and Asia – we are positioned to help ensure your needs are met.
